

## Casa Majane - villa with shared pool in Spain

In the picture above left you can see Casa Majane and the entrance area. Access to this urbanisation is only permitted to the owners or residents; the entrance door to the houses and the pool area is locked.

The nearest beach - although this is the smallest you will find east of Málaga to Herradura - is just a few metres down the hill. It is a little further to the much larger stretch of beach, but from here you can walk along the beach to the western end of Torre del Mar.

In the picture above left you can see the terrace, which can be accessed via the living room. The picture on the top right shows the small balcony that can be reached from the master bedroom. On the bottom right you can see the view from the second bedrooms minibalcony to the pool area and the garden of the urbanisation, the picture on the bottom left shows the view from the master bedrooms balcony.
